WHO WE ARE

D. Hill Nursery Co. was established in 1855. We are a family owned business, owned and operated by the Harms Family since 1988. Our nursery reputation is appreciated for the production of quality plant materials.

We occupy 300 acres in Union, Illinois and offer over 200 varieties of nursery stock. Our experienced growers continue to develop new ways to improve plant production in the flat, windswept terrain. The nursery has miles of underground irrigation pipe, wells, and a 3-million gallon plastic-lined holding pond. Pot-in-Pot, rose production and select B&B are under drip irrigation, which is constantly being fine-tuned.

At D. Hill, environmental balance is always important. There are two complete injection systems. Water runoff from the container operation is recycled. Cover crops are used to serve as green manure to replenish the soil.

Thank you for choosing D. Hill Nursery Co. to provide your company with our fine nursery stock. As always, we appreciate and value your continued partnerships and interest in our plant offerings. Your complete satisfaction is most important to us.

From all of us at D. Hill,
Dennis Harms
President

TERMS & CONDITIONS

TERMS: Payment is due at the time of pickup / delivery by cash, approved check or credit card. To establish Net 30 Day terms, completed account and credit applications must be submitted to our office for approval. A finance charge of 1.5% per month (18% per annum) will be added to any amount not paid within this 30 day period. Finance charges will be calculated from the date of pickup / delivery. Any balances over 60 days will be referred for collection, and all incurred fees will be the responsibility of the debtor. Restoration of open account privileges will not be considered until all fees have been paid. Accounts over terms will be returned to a C.O.D. basis.

CASH DISCOUNT: A cash discount will apply to cash or approved check payments made on receipt of goods. Your account must be current and have no outstanding check collection problems. A check verification system may be used for faster service. Credit card payments are NOT considered cash and will not receive a cash discount.

CREDIT CARDS: We accept Visa, Mastercard and Discover.

RETURNED CHECKS: A minimum fee of \$35.00 will be charged for each check returned by the bank. You may be liable for additional fees and costs. Any returned check may cause termination of Open Account privileges. Payment terms revert to cash or credit card.

SALES TAX: The State of Illinois requires us to have certificates of resale on file for the current year, *and* a letter stating tax exempt status for an organization or particular job. Otherwise, sales tax will be charged at the Illinois Occupational Tax Rate. (Currently 7%)

SHIPPING: Delivery charges are a cash transaction and are due and payable upon receipt of invoice.

WILL CALL ORDERS: Please see that your truck has adequate tarps and ropes to protect your plants. We are not responsible for the condition of any material that is not picked up within 5 days after notification that your order is ready. In order to serve you better and schedule our shipping properly, please phone 24 hours in advance of pick-up, and allow sufficient time to complete loading prior to closing time.

NOTE: Drivers must verify accuracy of loaded materials

CLAIMS: All shipments travel at the risk and cost of the purchaser. Before signing for the delivery, inspect the shipment and report any shortages or damage on the delivery ticket and notify our office within 5 days. Credit requests for non-viable plant material must be made in writing within 5 days after receipt of material. If payment was not made within 30 days, requests for credit will not be considered. It is the sole responsibility of the purchaser to protect early spring shipments from freezing conditions that could result in plant injury. Claims not to exceed purchase price. Note: A 25% restocking fee is applied to any plant materials returned without D.Hill Nursery authorization. This 25% also applies to any cancelled B&B material dug after customer's release of order.

WARRANTY: The nursery stock sold is true to name as described. The purchaser assumes all risk and responsibilities of planting, growth and life of purchased stock.

TAGGING: Our digging crews do an excellent job of plant selection. However, if you wish to tag a tree or shrub, we ask that you make an appointment at least 24 hours in advance.

DESCRIPTIONS: The brief descriptions given are to help you in selecting plants and to use as a guide. They are our observations of these plants under our growing conditions.

SIZE: Regardless of container size, our plants are strictly graded by height and width according to AAN standards. We feel that actual plant size is much more important than container size. All plants are B&B unless noted by container size number. For purposes of simplicity, only one size per grade will be listed. That size will be the minimum size allowable for that grade and shall include plant from that size up to but not including the next larger size.
Example: 18-23" is listed as 18".

PRICING - QUANTITY RATE: Quantity rate refers to the number of plants ordered and shipped at one time, per size and variety.

NOTES: Prices are subject to change without notice. All orders are booked subject to prior sale, counts, or crop conditions beyond our control. We will not be responsible for typographical errors.

SHRUBS

Hydrangea 'LimeLight'

5 Gal Spreading junipers

S H R U B S

AESCULUS PARVIFLORA

(Bottlebrush Buckeye)

Lightly fragrant white bottlebrush shaped flowers in late June provide a showy display in partially shaded areas. Butterflies are attracted to the flowers. Wide-spreading, multi-stemmed shrub. Rich, butter yellow fall color. 10' high and 8' wide.

Sun, Partial Shade, Fragrance

-18" High
-24" High
-30" High
-3' High
-4' High

AMELANCHIER (See Trees)

ARONIA ARBUT. 'BRILLIANTISSIMA'

(Red Chokeberry)

White flowers, crimson red fall color, and brilliant red berries that persist into winter. Moist or dry soil. Upright, multi-stemmed shrub. Height 6' with a 5' spread.

Sun, Partial Shade, Fragrance

-#5
-24" High

-3' High
-4' High

ARONIA MELANOCARPA 'MORTON'

(Iroquois Beauty™ Black Chokeberry)

A Chicagoland Grows® introduction from the Morton Arboretum which is tolerant of wet or dry planting sites and reaches 3' height and 5' spread. White flowers are followed by black berries in late summer. Foliage is dark green and turns a wine-red color in fall. Zone 3.

Sun, Partial Shade, Fragrance

-#5

AZALEA (See Broadleaf Evergreens)

S H R U B S

BERBERIS THUN. ATROP. 'NANA'

(Crimson Pygmy Barberry)

Bright red foliage, best color in sun. Persistent, bright red fruit an often overlooked attribute. Dwarf habit is excellent for low borders and accent plantings. 3' high and 5' wide.

Sun, Attracts Wildlife

.....#3

CLETHRA ALNIFOLIA 'HUMMINGBIRD'

(Hummingbird Summersweet)

Rounded, compact selection with glossy, green foliage and fragrant white flowers in midsummer. Tolerant of moist, shady environments. Height 3' with a 4' spread.

Sun, Partial Shade, Fragrance

.....#4

CLETHRA ALNIFOLIA 'RUBY SPICE'

(Ruby Spice Summersweet)

Yellow fall color, flowers retain their pink color better than 'Pink Spires'. Shade tolerant. Height 4' with a 4' width.

Sun, Partial Shade, Fragrance

.....#4

CLETHRA ALNIFOLIA 'SIXTEEN CANDLES'

(Sixteen Candles Summersweet)

An open pollinated selection of 'Hummingbird' exhibiting larger, fragrant white flowers in mid-summer. Dense, mounded habit with dark green foliage turning yellow in fall. 30" height with 30" spread. Zone 4.

Sun, Partial Shade, Fragrance

.....#4

CORNUS ALBA 'ELEGANTISSIMA'

(Variegated Dogwood)

White variegated foliage on an upright spreading plant.

Maroon-red stems add winter interest. Height 8' with a 6' spread. *Sun, Partial Shade, Attracts Wildlife*

.....#5

S H R U B S

CORNUS 'BAILEY'

(Bailey's Red Dogwood)

Rounded plant reaching 8'-10'. Wine-red stems in winter are very attractive. Tolerates partial shade and adaptable to most soils. Sun, Partial Shade

.....#5

.....3' High

.....4' High

CORNUS MAS

(Corneliancherry Dogwood)

Upright oval multi-stemmed clump form. Early yellow flowers emerge before the leaves offering one of the first floral displays in spring. Bright red cherry-like fruit by mid-summer. Exfoliating grayish bark adds winter interest. 20' height with a 15' spread. Sun, Attracts Wildlife

.....4' High

CORNUS MAS 'GOLDEN GLORY'

(Corneliancherry Dogwood)

Blooms before Forsythia. Small yellow flowers followed by bright cherry-red fruit. Upright oval, reaches 20'-25' height with a 12' spread. Sun, Attracts Wildlife

.....3' High

.....4' High

.....5' High

.....6' High

CORNUS SANGUINEA 'CATO'

(Arctic Sun™ Bloodtwig Dogwood)

Compact Habit, 3-4 ft height, rich yellow stems with red shading throughout. Zone 4. Sun, Partial Shade

.....#5

CORNUS SERICEA 'ALLEMAN'

(Alleman's Red Dogwood)

Compact selection of Red Twig Dogwood, 4'-6' mature height. Large quantities of slender wine red stems give an upright rounded profile. Hardier than Cornus Isanti. Sun, Partial Shade

.....#5

.....24" High

.....30" High

.....3' High

S H R U B S

CORNUS STOLONIFERA 'FARROW'

(Arctic Fire™ Red Twig Dogwood)

Compact version of Bailey dogwood. 3-4 ft height with dark red winter stem color. Zone 3.

Sun, Partial Sun

.....#5

COTINUS COG. 'VELVET CLOAK'

(Velvet Cloak Smokebush)

Upright spreading shrub with dark purple leaves throughout summer. Fall color can be spectacular reddish purple.

Midsummer flower display is very showy. Height 10' with 10' spread. *Sun*

.....#5

COTONEASTER ACUTIFOLIA

(Peking Cotoneaster)

Glossy dark green foliage, small pink flowers, black fruit and red fall color. Good plant for hedges. Height 8' with an 8' spread. *Sun, Partial Shade*

.....#5

COTONEASTER APICULATA

(Cranberry Cotoneaster)

Mounded shrub with recurving branches. Covered with persistent, red fruit in early fall. Height 3' and 6' width. Hardest of the dwarf Cotoneasters.

Sun, Partial Shade

.....#5

COTONEASTER X 'HESSEI'

(Hessei Cotoneaster)

Small, lustrous dark green leaves give a finer textured effect as compared to Cotoneaster apiculata. Good massing or accent plant with red fruit in early fall. Height 3' and a 6' spread. *Sun, Partial Shade*

.....#5

S H R U B S

EUONYMUS ALATUS 'ODOM'

(Little Moses™ Dwarf Burning Bush)

Slow growing and more compact than *Euonymus alatus* 'Compacta'. Great red fall color that appears to hold its color very well. Height 3 ft with 3 ft spread. Zone 4.

Sun, Partial Shade, Attracts Wildlife

.....#5

EUONYMUS ALATUS 'COMPACTA'

(Compact Winged Burning Bush)

Slower grower and more densely branched than the species. Tolerates partial shade. Best red fall color. Height 8', 6' spread. *Sun, Partial Shade, Attracts Wildlife*

.....#5

.....24" High

.....30" High

.....3' High

.....42" High

EUONYMUS FORT. 'EMERALD GAIETY'

(Variegated Silver Euonymus)

Deep green leaves have a white margin which can develop a pink tinge for winter. Low upright spreading habit. It may climb vertically near a wall. Very good for adding brightness to a dark corner. Height 3' with a 5' spread.

Sun, Partial Shade, Attracts Wildlife

.....#3

EUONYMUS FORT. 'EMERALD GOLD'

(Variegated Gold Euonymus)

(Regular & Large Leaf Variegated Gold Euonymus)

Dark glossy green leaves with yellow margins, may take on a pink tinge for winter. Low upright spreading habit. It may climb vertically near a wall. Very good for adding brightness to a dark corner. Height 3' with a 4' spread.

Sun, Partial Shade

.....#3

S H R U B S

EUONYMUS FORT. 'INTERBOLWI'

(Blondy® Wintercreeper)

Bright yellow stems with yellow thumb prints in the center of each leaf. Low spreading habit. 18-24". Zone 5.

Proven Winners Introduction. Sun, Partial Shade

.....#3

EUONYMUS FORT. 'ROERMERTWO'

(Gold Splash® Wintercreeper)

Showy, big round green leaves with deep golden-yellow edges. Low spreading plant to 18". Zone 5.

Sun, Partial shade

.....#3

FORSYTHIA OVATA 'SUNRISE'

(Sunrise Forsythia)

Flowers emerge before the leaves. This offers one of the first displays of spring. Rich dark green summer foliage, dense, rounded habit. 5' high with a 5' spread. Flowers are consistently bright yellow. Hardy to (-20 F). Fall color is bronze to purple.

Sun, Partial Shade

.....30" High

.....3' High

FOTHERGILLA GARDENII

(Dwarf Fothergilla)

Fragrant white flowers on terminal spikes. 1" in diameter and 2" long. Long lasting brilliant yellow-orange to scarlet fall color. Will tolerate partial shade. Height 4' with a 4' spread. Sun, Partial Shade, Fragrance

.....#5

HAMAMELIS VERNALIS

(Vernal Witch Hazel)

Yellow to red flowers in late winter, shade tolerant. Upright rounded habit 10' high by 10' wide. Yellow fall color.

Sun, Partial Shade

Sun, Partial Shade

-3' High
-42" High
-4' High
-5' High

HYDRANGEA ARBORESCENS 'ABETWO'

(Incrediball® Smooth Hydrangea)

Very large white flowers in summer, dark green foliage, on a rounded shrub 5 ft tall and 6 ft wide make a striking addition to any landscape. Flowers are held on sturdy stems to maximize presentation without flopping. Zone 3.

Proven Winners Introduction.

Sun, Partial Shade, Attracts Wildlife

-#5

HYDRANGEA ARBORESCENS 'ANNABELLE'

(Annabelle Hydrangea)

A superior cultivar with extremely large white flowers, tolerates partial shade. Height 4' with a 5' spread. Very hardy.

Sun, Partial Shade

-#5

HYDRANGEA MAC. 'BAILMER'

(Endless Summer® Bigleaf Hydrangea)

A Hydrangea macrophylla that may bloom on first and second year wood. Large blue flower mops when grown in acidic soil. Clear pink flowers in alkaline soils. Height 3' with a 3' spread. *Sun, Partial Shade*

-#5

HYDRANGEA MACRO 'PIIHM-I'

(Twist-n-Shout® Bigleaf Hydrangea)

Member of the Endless Summer® Collection, flowers on old and new wood for extended summer floral effect. Flowers are lacy with deep-pink centers, while outer petals are either pink or periwinkle blue based on soil acidity. Red-burgundy fall color, rounded habit, 4 ft high and 4 ft wide. Zone 4. *Sun, Partial Shade*

-#5

S H R U B S

HYDRANGEA PANICULATA 'BULK'

(Quick Fire® Panicle Hydrangea)

Very early to flower and flowers turn a deep pink. Upright rounded shrub reaching 6' height with a 6' spread. Zone 4. A Proven Winner introduction.

Sun, Partial Shade

.....#5

HYDRANGEA PANICULATA 'DVPpink'

(Pinky Winky™ Panicle Hydrangea)

Upright rounded shrub with large 14" two-toned blooms. The petal count is nearly double Pink Diamond; thus giving a fuller appearance. Height 6' and a 6' spread. Zone 4.

Proven Winners Introduction. *Sun, Partial Shade*

.....#5

HYDRANGEA PANICULATA 'GRANDIFLORA'

(PeeGee Hydrangea)

Very showy flowers in July and August. Large conical white flowers changing to pink-bronze in the fall. Grown in shrub or tree form. Height 8' with 10' spread. Zone 3.

Proven Winners Introduction. *Sun, Partial Shade*

.....4' Tree Form #10

HYDRANGEA PANICULATA 'JANE'

(Little Lime™ Panicle Hydrangea)

Dwarf form of Limelight Hydrangea. Mounded habit, 4' height with 5 ft spread. Flowers open light green and change to pink and burgundy with the onset of fall. Zone 3.

Sun, Partial Shade

.....#5

HYDRANGEA PANICULATA 'LIMELIGHT'

(Limelight® Panicle Hydrangea)

Upright rounded habit with lime-green flowers in late summer provide an unusual flower effect. In fall these flowers range from pink, burgundy, to green in color. Tolerates partial shade and reaches 8' height, 7' spread. Flowers on first year wood. Zone 3. Proven Winners Introduction.

Sun, Partial Shade

.....#5

S H R U B S

HYDRANGEA PANICULATA 'PINK DIAMOND'

(Pink Diamond Panicle Hydrangea)

Large 12" flower panicles open white and fade to light pink. Excellent floral display. Rounded shrub reaching 8' height with a 5' spread. Zone 4. Sun, Partial Shade

.....#5

.....4-1/2' Tree Form #10

HYDRANGEA PANICULATA 'TARDIVA'

(Tardiva Panicle Hydrangea)

White flowers on 6" panicles appear in late August. Compact, spreading growth habit 8' high with a 10' width. Tolerates partial shade. Zone 3.

Sun, Partial Shade

.....#5

.....5' Tree Form #10

HYDRANGEA PANICULATA 'RENNY'

Vanilla Strawberry™ (Panicle Hydrangea)

First Editions® introduction with flowers that open creamy vanilla-white, change to a soft pink, finish with a ripe strawberry-red. 7' high and 5' wide. Sun, Partial Shade

.....#5

HYDRANGEA QUERCIFOLIA

(Oak leaf Hydrangea)

Exfoliating cinnamon brown bark, large white flowers in midsummer, and it's oak leaf shape plus coarse texture make this an excellent three season accent plant. Burgundy red fall color. Height 4' and 4' wide. Sun, Partial Shade

.....#5

HYDRANGEA QUERCIFOLIA 'PEE WEE'

(Pee Wee Oakleaf Hydrangea)

Dwarf selection with compact habit. White flowers in early summer with wine red fall color. Excellent accent plant for smaller sites. Height 3' with a 3' spread.

Sun, Partial Shade

.....#5

S H R U B S

ILEX VERTICILLATA 'DWARF MALE'

(Dwarf Male Winterberry)

Now marketed as 'Jim Dandy'. Pollinator for 'After Glow' and 'Red Sprite'. Height 5' and a width of 4'. Sun, Partial Shade

.....#4

ILEX VERTICILLATA 'RED SPRITE'

(Red Sprite Winterberry)

Most dwarf of the Common Winterberry, large bright red fruit provide a very nice winter effect. Needs 'Dwarf Male' for pollination. Fall color can be a nice purple bronze. Height 3' with similar spread. Sun, Partial Shade

.....#4

ITEA VIRG. 'SPRICH'

(Little Henry® Virginia Sweetspire)

Fragrant white flowers in June, compact growth habit reaches 2' high with a 3' spread. Prefers moist sites, shade tolerant. Brilliant red fall color.

Sun, Partial Shade, Attracts wildlife

.....#5

MAGNOLIA (See Trees)

PHYSOCARPUS OPULIFOLIUS 'CENTER GLOW'

(Center Glow Ninebark)

Emerging foliage is rosy red color with golden yellow center then matures to a deep burgundy. White flowers, bright red fruit, and upright mounded habit reaching 8 ft tall and 8 ft wide. Outstanding contrast for the garden. Zone 2. Sun

.....#5

PHYSOCARPUS OPULIFOLIUS 'DONNA MAY'

(Little Devil™ Ninebark)

Red-purple foliage on a low maintenance, compact plant. Perfect small garden shrub with upright rounded habit reaching 3-4 ft. Round button-like white-pink flowers. Sun

.....#5

PHYSOCARPUS OPULIFOLIUS 'MINDIA'

(Coppertina™ Ninebark)

Initial growth in spring is copper color and reaches a rich red in summer. 6-8 ft upright rounded habit and zone 3 hardy. Sun

.....#5

S H R U B S

PHYSOCARPUS OPULIFOLIUS 'SEWARD'

(Summer Wine® Common Ninebark)

European introduction with attractive purple foliage. Extremely hardy. Showy pinkish-white flowers during midsummer. Height 6' with upright rounded habit. Sun

.....#5

POTENTILLA FRUTICOSA 'GOLDFINGER'

(Goldfinger Potentilla)

Medium sized, abundant golden yellow flowers, full sun. Trim for 2nd fall bloom. Excellent variety, appears to be improved form of Gold Drop. Height 3' with similar spread.

Sun

.....#5

RHODODENDRON (See Broadleaf Evergreens)

RHUS AROMATICA 'GRO-LOW'

(Gro-Low Sumac)

Low growing habit makes this plant ideal for mass plantings and dry banks to hold soil in place. Responds well to shearing. Orange to scarlet fall color. Height 2' with 8' spread. Sun

.....#3

RIBES ALPINUM

(Alpine Currant)

A good plant for small hedges. Tolerates shearing and shade. Height 5' with a 5' spread. Sun, Partial Shade

.....#5

RIBES ALPINUM 'GREEN MOUND'

(Dwarf Alpine Currant)

Grows wider than tall, good leaf retention. Makes a nice slow growing hedge and is shade tolerant. Height 2' with a 3' spread. Sun, Partial Shade

.....#3

ROSES

ROSE VARIETIES

Free-flowering, disease resistant, hybrid shrub roses that require minimum maintenance.

CORAL DRIFT

Compact groundcover rose with deep coral orange cup-like flowers. Abundant and continuous 1 1/2" flowers cover plant reaching 1 1/2' height with similar spread. Very good disease resistance. Zone 5.

Sun

.....#3

DOUBLE KNOCKOUT®

Abundance of double, cherry-red flowers. Close relative of famous "Knock Out". Everblooming. Disease resistant. Mulch to help zone 4 hardiness. 4' x 4'.

Sun

.....#3

HOME RUN®

Dark red single flowers 3" in diameter even darker in cooler climates. Excellent disease resistant and orange red hips. Height 3' and zone 4. *Sun*

.....#3

ICY DRIFT

Small, pure white double flowers from late spring to frost. Large clusters of flowers, good disease resistance, and medium green, glossy foliage. Height 2 ft with 3 ft spread. Zone 4. *Sun*

.....#3

KNOCK OUT® (AARS 2000)

Cherry red opening to fuchsia flowers. Single 3"-3.5". Everblooming. Disease resistant. Red-orange rose hips. Mulch to help zone 4 crown hardiness. 3' x 3'.

Sun

.....#3

ROSES

ROSE VARIETIES

Free-flowering, disease resistant, hybrid shrub roses that require minimum maintenance.

PINK DRIFT

Deep pink, semi-double flowers 1 1/2" in diameter. Low, creeping habit with height of 1 1/2' width of 3'. Semi-glossy dark green leaves with good disease resistance. Zone 5.

Sun

.....#3

PEACH DRIFT

Soft peach flowers from spring to first hard freeze of fall. Disease resistant, 2 ft height and 2 ft spread. Low spreading habit lends itself to small gardens and tight spaces.

Zone 4. *Sun*

.....#3

POPCORN DRIFT

Color starts out yellow and fades to a creamy white, reminiscent of buttery popcorn. Medium green, very glossy leaves. Disease resistant. 1-1/2 ft height with a 2-1/2 ft spread. Zone 5. *Sun*

.....#3

RED DRIFT

Petite red flowers, good disease resistance, dark green foliage, and low spreading habit. Height 2 ft with 3 ft spread. Rebloomer, and accent plant for draping over vertical landscape structures. Zone 4. *Sun*

.....#3

SWEET DRIFT

Clear pink double flowers over dark green glossy foliage. Abundant continuous flowering and disease resistant make this a good plant for paths, hillsides, or the front of a border. 1-1/2 ft height with a 2-1/2 ft spread. Zone 4.

Sun

.....#3

S H R U B S

SPIRAEA BETULIFOLIA 'TOR'

(Tor Birchleaf Spirea)

White flower clusters in late spring on a compact, rounded plant, 2-3' height with birch-like, bright green leaves. Exceptional purple fall coloring. Zone 3. Sun

.....#5

SPIRAEA X BUMALDA 'GOLDFLAME'

(Goldflame Spirea)

Multi-colored foliage of red, yellow, and orange add contrast to a dwarf shrub planting. Light red flowers in summer.

Height 3' with 4' spread. Sun

.....#5

SPIRAEA X BUMALDA 'NEON FLASH'

(Neon Flash Spirea)
